

Antenna Measurement Seminar in Prague

emv GmbH and **Nearfield Systems Inc.** are hosting a Seminar on "Antenna Measurement Systems" in cooperation with **Czech Technical University** in Prague, the Department of Electromagnetic Field (prof. Ing. Milos Mazanek, CSc.) on

September 22nd 2011.

Some of the topics, that will be covered:

- Near-field Antenna Measurement Theory
- Implementation of High Frequency Antenna Test Systems
- Facility Design Aspects including Chambers and Absorbers
- TU Prague Research & Test facilities
- NSI 2000 Software for antenna test systems
- MARS Reflection Suppression Software

A [preliminary agenda](#) can be downloaded from our website.

Target Group:

RF Test or Development Engineers that are already performing antenna measurements or are planning to do so in the future.

Language:

English, Czech

Presenters:

Milos Mazanek (TU Prague)
Daniël Janse van Rensburg (NSI)
Stuart Gregson (NSI)
Zuzana Wood (emv)

Please sign up on our website (www.emvgmbh.de) until Sept. 7th, 2011.
