

Model PK7000, M1-M31 Multiple Electric Field Probe Kits

FL7030

FL7006

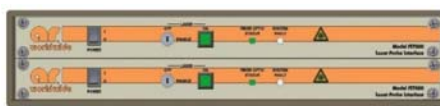

FL7018

The Model PK7000 contains multiple Laser Field Probe kits. All included FI7000's are mounted in a single instrument case. Please see individual kit specification sheets for kit details.

NOTE: FM7004 is recommended for local monitoring and control.

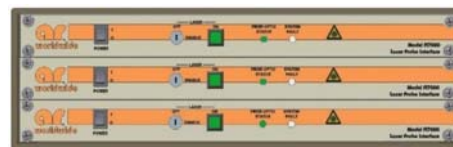

Select a PK7000M# that satisfies your requirement of performance and quantity of probes.
